

ACER DECISION n° 01/2012

**RELATING TO THE REGISTRATION FORMAT
PURSUANT TO ARTICLE 9(3) OF REGULATION (EU) No 1227/2011**

THE AGENCY FOR THE COOPERATION OF ENERGY REGULATORS,

HAVING REGARD to Regulation (EU) No 1227/2011 of the European Parliament and of the Council of 25 October 2011 on wholesale energy market integrity and transparency¹ and, in particular, Article 9(3) thereof,

WHEREAS:

- (1) Article 9(3) of Regulation (EU) No 1227/2011 provides that National Regulatory Authorities shall transmit to the Agency for the Cooperation of Energy Regulators (the 'Agency') the information in their national registers in a format determined by the Agency and that the Agency shall, in cooperation with those authorities, determine that format (the 'Registration Format') and shall publish it by 29 June 2012.
- (2) National Regulatory Authorities have been closely involved in the determination of the Registration Format, *inter alia* through the Agency's Board of Regulators.
- (3) Stakeholders were extensively consulted on the elaboration of the Registration Format. All interested parties were invited to provide comments, by 21 May 2012, on the Public Consultation Paper (PC_2012_R_08) published on 18 April 2012 and to attend a public workshop, held on 3 May 2012, during which the Consultation Paper was presented. In response to the public consultation, written contributes were received from 41 interested parties.
- (4) The Registration Format is inspired to the criteria indicated in the Public Consultation Paper, namely: ensuring the uniqueness of the identifier at European level; minimizing the burden, including implementation costs, for all interested parties in particular by taking into appropriate consideration and promoting interoperability among different coding systems currently used for trading and balancing; ensuring the accuracy of the information provided in the Registration Format also as regards the corporate structure of the registered market participant while at the same time keeping the registration process as smooth, light and fast as possible.

¹ OJ L 326 of 8.12.2011, p. 1

- (5) To ensure the traceability of any change to the information in the European register to be established pursuant to Article 9(3) of the Regulation (EU) No 1227/2011 (the 'European register'), it is necessary that the Agency issues a unique identifier (the 'ACER code') upon the transmission for the first time of the information in national registers. The ACER code will be communicated to the market participant in the acknowledgement of the first registration and shall be used when market participants communicate such changes pursuant to Article 9(5) of the Regulation.
- (6) Taking into account the written contributions received from stakeholders, the initial proposal for the Registration Format was simplified. For instance, a foreseen section of the Registration Format for country-specific information was limited to one single information field that will be dedicated to a national interoperability code to be defined by National Regulatory Authorities in order to maintain a link with national information that are not requested to be available in the European register.
- (7) In order to enable the Agency to carry out its tasks under Regulation (EU) No 1227/2011, the European register should contain information on the corporate structure of market participants, in particular concerning their relation with other registered market participants. The publication by the Agency of the list of the market participants recorded in the European register will allow the public identification of registered related undertakings. Therefore, it is appropriate that the information on related undertakings is provided only after the Agency has published for the first time the list of market participants recorded in the European registry.
- (8) The Registration Format will be reviewed in due course, taking into account the relevant implementing acts adopted under Article 8(2) and 8(5) of Regulation (EU) No 1227/2011. If necessary, changes to the Registration Format may need to be adopted by a decision pursuant to Article 9(3) of Regulation (EU) No 1227/2011.
- (9) Pursuant to Article 1(5) of the Regulation (EU) No 1227/2011, the Director of the Agency consulted the Agency's Board of Regulators on the Registration Format. At its meeting of 19 June 2012, the Agency's Board of Regulators welcomed the Agency's decision considered for adoption relating to the Registration Format.

HAS ADOPTED THIS DECISION:

Article 1

When transmitting the information in the national registers established pursuant to Article 9(2) of Regulation (EU) No 1227/2011, National Regulatory Authorities shall use the format provided in Annex 1 to this decision.

Article 2

National Regulatory Authorities shall provide promptly the Agency with the information in the national registers in electronic format, through a secure channel and using one of the following formats: CSV or XML.

Article 3

The information in Section 4 of Annex 1 to this decision shall be provided by market participants no later than three months after the Agency has published for the first time the list of market participants registered in the European register.

Done at Ljubljana on 26 June 2012.
